The Knorr-Bremse leadership team

Frank Weber
CFO & Executive Board Spokesman

- 2020-present: Knorr-Bremse | CFO
- 2016-2020: Daimler AG | Head of Corporate Development
- 2019-2020: Mercedes-Benz AG | Head of Transformation
- 2013-2016: Daimler Trucks Asia | CFO
- 2011-2013 Mitsubishi Fuso Trucks & Bus Corporation | CFO
- Diploma in Bus. Administration

Professional Experience **25**

Years with Knorr-Bremse **2**

Notes: RVS - Rail Vehicle Systems; CVS - Commercial Vehicle Systems

Dr. Claudia Mayfeld
Member of the Board, Integrity & Legal

- 2021-present: Knorr-Bremse | Head of Integrity & Legal
- 2013-2019: RWE Pensionsfond | Member of the Executive Board
- 2016-2020: Innogy SE | Senior Vice President Group Legal & Compliance, General Counsel
- 2013-2016: RWE AG | Senior Vice President Group Legal & Compliance, General Counsel
- PhD in Accounting Principles

Professional Experience **28**

Years with Knorr-Bremse **1**

Bernd Spies
Member of the Board, CVS

- 2022-present: Knorr-Bremse | Head of CVS
- 2014-2022: Knorr-Bremse | Member (2013-2015) and Chairman (since 2014) of the Management Board, CVS
- 2008-2013: Hella KGaA Hueck & Co | Member of the Management Board, Global Sales
- 2006-2008: Robert Bosch GmbH | Head of Commercial Vehicles product division, Starters and Alternators
- Diploma in Electrical Engineering

Professional Experience **28**

Years with Knorr-Bremse **8**

Dr. Jürgen Wilder
Member of the Board, RVS

- 2018-present: Knorr-Bremse | Head of RVS
- 2015-2017: DB Cargo AG | CEO
- 2013-2015: Siemens AG | CEO Mainline Transportation Global Business Unit
- 2011-2013: Siemens AG | Head of Strategy Infrastructure and Cities Sector
- PhD in Physics

Professional Experience **21**

Years with Knorr-Bremse **4**

Knorr-Bremse – One of Germany’s most successful industrial companies

2021 Key financials

BALANCED PORTFOLIO²⁾ ...

... AND DIVERSIFIED GLOBAL FOOTPRINT WITH HIGH LOCAL CONTENT

Notes: Sales, EBITDA, EBITA, and EBIT for 2020 based on annual report prepared in accordance with IFRS, other financial figures for 2020 prepared in accordance with German GAAP (HGB); Aftermarket share based on German GAAP (HGB) where BilRUG sales allocated proportionally between OE and aftermarket; RVS – Rail Vehicle Systems; CVS – Commercial Vehicle Systems; 1) CAGR 1989–2019 based on German GAAP (HGB), 1989 – first year when consolidated accounts are available; 2) Excluding consolidation/other; 3) Including human resources leased staff; Source: Knorr-Bremse information

Over 30 years of consistent strong growth

Notes: 1986-2016 based on financial statements prepared in accordance with German GAAP (HGB) and 2017-2019 based on financial statements prepared in accordance with IFRS. 1) 1989 – first year when consolidated accounts are available

Global market leader in rail and truck

Market leadership

A global market leader

~50% market share¹ in RVS brakes

~23% market share¹ in CVS brakes

Market outperformance

Track record of **above industry growth: 10% historic revenue CAGR²**

Innovation edge

Shaping industry trends by focusing on **safety** and **mission critical** applications

Sustainability is part of our DNA

Our technologies are the **foundation for sustainable and safe transportation**

High safety requirements

Key supplier with global core technology know-how and capabilities
Clearly ahead in global **homologation** processes

Resilience

36% aftermarket share¹

Well-balanced **portfolio**
Cost-efficient operations

Profitability

Ø EBIT margin of ~14%

Focus on **attractive** rail and truck **end markets**

1) In 2020 2) 1989-2019

Global #1 – Leading supplier of safety-critical rail and commercial vehicle systems

RVS offering (2021: 49% of sales, 59% of EBITDA)

Brake systems	Entrance systems	HVAC ¹⁾	Train Control Management Systems	LRV ²⁾ traction systems
---------------	------------------	--------------------	----------------------------------	------------------------------------

Power electronics	Auxiliary power supply	Signaling systems
Modernisation and support		Aftermarket business

CVS offering (2021: 51% of sales, 41% of EBITDA)

Fuel efficiency <ul style="list-style-type: none"> Engine components Transmission 	Brake systems, steering & vehicle dynamics <ul style="list-style-type: none"> Brake control Brake systems Automated driving Steering systems
---	--

Energy supply & distribution	Connectivity	Electrification
Aftermarket services including Alltrucks network ³⁾ ALLTRUCKS		

Our customers

Example car builders

Example operators

Notes: 2020 financials based on IFRS excluding consolidation/other; 1)HVAC – Heating, ventilation and air conditioning; 2)LRV – Light rail vehicle; 3) Joint Venture between Bosch, Knorr-Bremse and ZF providing a range of workshop services relating to the repair and maintenance of commercial vehicles across all brands; 4) OEM – Original Equipment Manufacturer

Global #1 – ... protected by high barriers to entry

Barriers to entry for RVS and CVS markets

Regulation / homologation

Low volumes, high number of variants with high level of customisation

High initial capital requirements, highly protected IP landscape and economies of scale

Highest quality and safety requirements

Long life-cycle with resulting customer loyalty, long gestation period for aftermarket

Same industry leaders since creation of the industry over 100 years ago

Market specifics

RVS

Only supplier world-wide

certified for all global and local standards and norms (GOST, UIC, AAR, ARA)

Vast array of product variants to homologate

(e.g. >100k active brake articles by Knorr-Bremse)

Homologation time typically 4-8 years

for recent Knorr-Bremse products

CVS

One of only two suppliers able to offer harmonised products globally

Continuously increasing safety and emission standards requirements

KB has maintained and expanded its market leading positions

Market positions key product groups¹

Global brakes market shares¹

- #1 Brake systems
- #1 Entrance systems
- #1 HVAC systems²

*Example global market leader
for brakes¹*

Market positions key product groups³

Global brakes market shares³

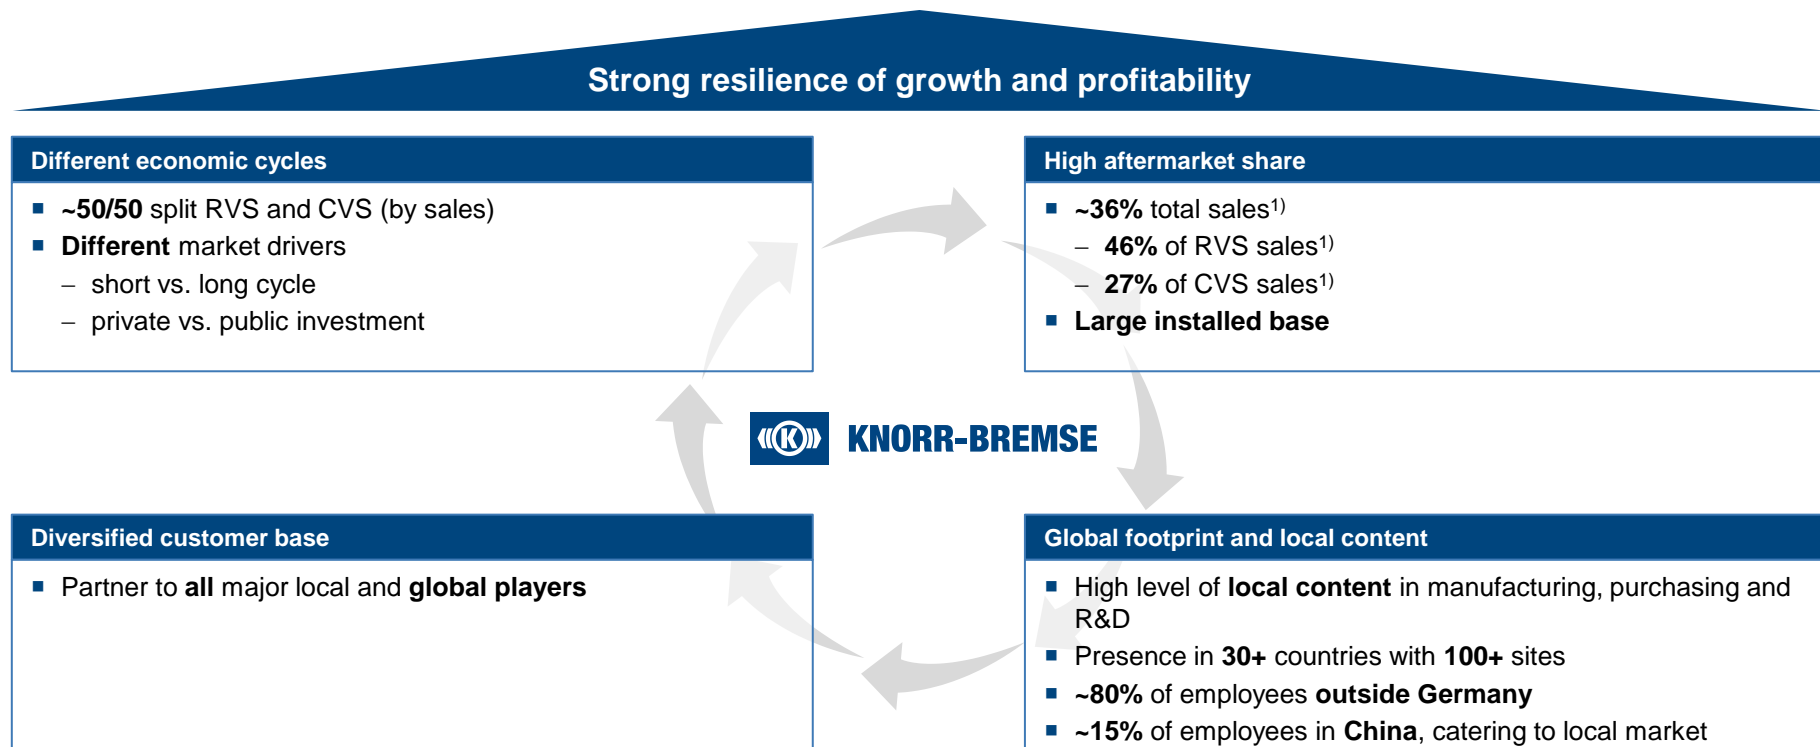

- #1 Brake systems & vehicle dynamics⁴
- #1 Energy supply & distribution⁵
- #1 Fuel efficiency⁶

*Example global market leader for
brake systems & vehicle dynamics⁴*

1) 2020 estimates for OE and aftersales without labor; Wabtec includes Faiveley; For competitor, an estimate was used; Market shares rounded to the nearest multiple of 5% 2) Heating Ventilation Air Conditioning
3) For 2020 global addressable Truck, Bus and Trailer OE market, excl. aftermarket 4) Air disc brake, valves / pedal unit, actuators, foundation drum brake, steering, brake control (ABS, EBS, ESP), ADAS, ELC, others 5) Compressors, air treatment 6) Vibration dampers, engine air control, transmission – gear and clutch actuation/ control; Source: internal market research

Resilience – Strong business model

Notes: 1) Based on IFRS in 2020

Resilience – Attractive aftermarket business with comprehensive service offering drives profitability and contains high future potential

Aftermarket is the growth and resilience backbone

Key features

Annuity-like

- Regulated maintenance intervals
- Leverages high installed base
- 20-30 years long relationships

Close to the customer

- RVS
 - 36 service centres²⁾
 - 20 service locations at customers' premises
- CVS
 - >1,600 certified service partners
 - >700 Alltrucks workshops

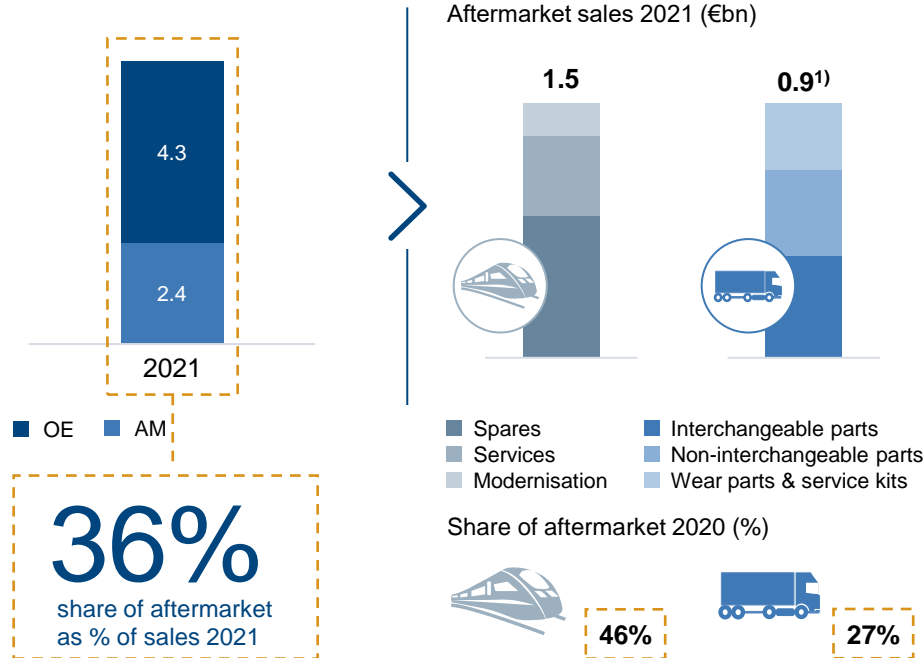

Strong customer retention (homologation)

- High switching costs
- Focus on safety and quality
- IP protection

Innovative business model

- New connectivity-based business models
- Preventive
- Predictive

Notes: 1) Total CVS aftermarket sales and independent aftermarket sales EMEA (excl. South Africa & Skach) as proxy for the global split; 2) Does not include service locations at customers' premises;

Synergistic business – Technology and scale benefits between Rail and Commercial Vehicles

Interdependence of RVS and CVS

- Same core technologies
- Shared components and materials
- Co-located R&D centers
- Shared overhead functions

Future technology development

- Shared research centres
- ADAS¹⁾ / HAD²⁾ technology transfer
- Condition monitoring, condition-based and predictive maintenance
- Electrification and connectivity
- Electromechanical brake systems

Differences of RVS and CVS

- Serial business (CVS) vs. project business (RVS)
- Different customer group

RVS

CVS

Electric compressors
Friction materials
Air disc brakes (ADB)

Driver assistance
Trailer control valve
Electronic air supply

Notes: 1) ADAS – Advanced driver assistance system; 2) HAD – Highly automated driving

Innovation is the basis of KB's technology leadership and long-term success

True Scale:

~3,800 R&D employees
Thereof 740 software engineers
5 global R&D centers (3 co-located)

Agile R&D methods implemented

Extensive partnership network & collaboration with tech players

In-house incubator

Pioneering innovations (examples)

RVS

Digital automatic coupler for freight (DAC)

Reproducible braking distance

LIFEDrive sliding doors

CVS

Electric power steering

Electronic parking brake

eCompressor

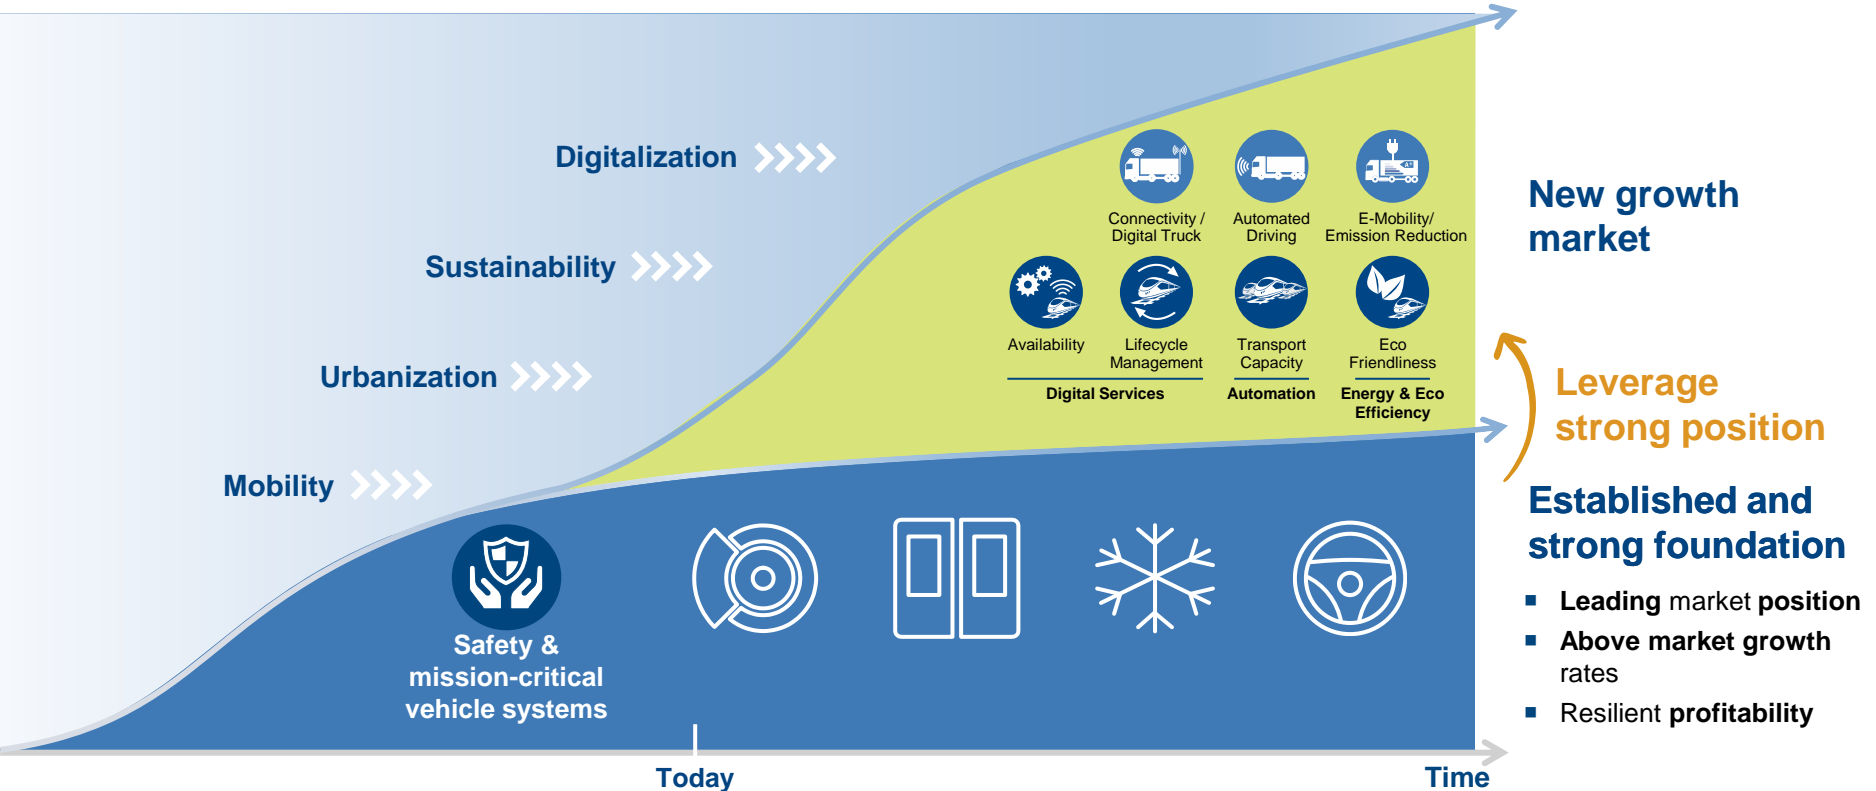

Long-term R&D ratio: 6 – 7 %

We confirm our successful strategy

- «1» Systematically **develop base portfolio**
- «2» **Focus on attractive segments** for future outperformance in **rail** and **truck**
- «3» Drive **innovation & digitalization**
- «4» **Clear M&A** strategy
- «5» **Operational excellence**
- «6» **ESG** and **sustainability**
- «7» **Strong financial performance**

KB will continue to grow its core business further and will also develop new levers of growth

Capital allocation priorities: clear framework with focus on organic growth and bolt-on M&A

M&A – clear strategy

Priorities

Pursue **attractive and selective segments** in **rail** and **truck** for **future outperformance**

Focus on **bolt-on** acquisitions in **rail** and **truck**, **no focus** on **third pillar**

Strengthen our core business **with new capabilities**

Continue active **portfolio management** along stringent strategic and financial criteria

Strategic Principles

Markets & Segments

- Highly **attractive growth segments** with strong **entry barriers**
- **Technological differentiation**

Business Model

- **Leading** market position and/or leading technology
- **Sustainable** competitive advantage
- **Resilient** business model

Synergies

- **Best owner** principle
- Tangible and realistic **synergies**
- Easy to integrate with high **cultural fit**

M&A – clear financial guardrails

Priorities

Attractive segments

Bolt-on acquisitions

Strengthen **core business**

Active **portfolio management**

Financial principles for larger transactions

Value accretive for KB

Strong **cash generation**

High **profitability (ROS + ROCE)**

High **aftermarket** revenue base

Asset-light business model

Portfolio management, if needed

Start-ups with **clear plan for strong financial profile /**
accretive **cooperation potential**

Stringent post merger integration to ensure deliverables

Focus on operational excellence

Global platforms

Process digitalization and standardization

Footprint optimization

Continued “local for local” set-up and value chain

Cost improvements

FY21: Guidance achieved in a challenging environment

Revenue

op. EBIT margin

€m

Promised

Outperformance in major markets

Resilient profitability

Strong cash preservation during Covid

Corporate Governance improvements

Shareholder value generation

Delivered

Stronger growth than markets

op. EBIT margin of 13.5%

FCF of € 600m and CCR of 93%

ESG target in STI included and reporting shortened

EPS at 3.85 and ROCE 24.9%

Group Guidance 2022 fully in line to support our mid-term targets

Mid-term outlook: continued profitable growth of Knorr-Bremse towards 2025

Organic revenues
in €bn

	Revenue CAGR	EBIT margin (ROS)
RVS	5 – 6%	18.0 – 19.5%
CVS	7 – 8%	12.0 – 13.5%
Group	ROCE ≥30%	CCR over cycle 80 – 90%

Note: Operating margins shown 2021 and 2025; based on market expectations mirrored in other CMD presentation parts

Agenda

- Introduction
- Key Company Highlights
- **Rail Vehicle Systems (RVS)**
- Commercial Vehicle Systems (CVS)
- R&D Focus
- Financials
- Sustainability
- Capital Markets Summary

RVS – Outperformance and resilience

Market leadership

Global #1 market leader across products and regions (e.g. ~50% market share in brake systems)

Strong growth profile

RVS with **long track record of outperforming underlying markets**

Technology innovation

- **Strong technology innovator** shaping industry standards
- Continuation of **R&D investments**

High barriers to entry

- **Safety-critical products** with significant homologation barriers
- RVS only supplier certified for all standards and norms globally

Resilience

- **Expansion of business** through customer-region-product mix
- **Strong aftermarket** (~46% revenue share)

Profitability

Outstanding profit margins with track record of margin expansion and disciplined cost management (EBIT margin ~18%)

RVS – the leading safety critical systems supplier for rail with a track record of market outperformance

Highlights

Rail brake systems supplier globally¹⁾

Rail entrance systems supplier globally¹⁾

HVAC systems supplier globally¹⁾

Global brakes market share¹⁾

Present in 50-55% of global installed base²⁾

CVS with high-quality business model – Outperformance and resilience

Market leadership

A global market leader
increasing market share (~25% for brake systems & vehicle dynamics)

Strong growth profile

Continuously **outperforming markets with rising content per vehicle** (5% sales CAGR vs. ~2% TPR growth between 2012-2021)

Technology innovation

Technology leader with continuous significant **investment in innovation and R&D**

High safety requirements

Global key supplier with **system know-how** and **vehicle dynamics capabilities**

Resilience

Strong aftermarket share (~27% revenue share), **cost efficiency**, regional **diversification** as well as track record in **strong cost management execution**

Profitability

Technology differentiation, superior products, systems approach, scale advantage and consequent **cost management** (operating EBIT margin ~11%)

CVS – One of two global leaders with an outstanding position in braking and safety-relevant systems

CVS is market leader in all major product fields

Global market share 2021¹ (% of revenues)

1) 2021 estimated addressable Truck, Bus and Trailer OE market, incl. "Brake Systems & Vehicle Dynamics (incl. Automated Driving)", "Energy Supply & Distribution" and "Fuel Efficiency"; excl. aftermarket; Knorr-Bremse data 2) Air Disc Brake, Valves / Pedal Unit, Actuators, Foundation Drum Brake, Steering, ABS, EBS, ESP, DAS, ELC; incl. segment Others 3) Compressors, Air Treatment 4) Vibration Dampers, Engine Air Control, Transmission – Gear and clutch actuation

Historic development of OE and AM business

Strong growth both in OE and AM

CVS sales by type (HGB, €bn, 2010-2017)1) 2018-21 IFRS

Notes: ; Some sales split may not add up due to rounding 1) BilRUG sales allocated proportionally between OE and aftermarket; 2) Global Truck and Bus market excluding aftermarket and Trailer; Source: Knorr-Bremse information and internal market research; IHS for truck production rate

Conversion in legislation drives the global adoption of technologies provided by Knorr-Bremse

Legislative decisions foster demand for Knorr-Bremse solutions

Notes: 1) Approved in May 2018, government intends to stimulate efficiency & vehicle safety; 2) European Commission: COM(2018) 286 & Vulnerable Road Users Directive (VRUD); 3) General Administration of Quality Supervision, Inspection & Quarantine of People's Republic of China, technical specification for safety of power driven vehicles operating in roads; Source: Knorr-Bremse internal market research; Roland Berger market study: Trends in the truck & trailer market (August 2018)

KNORR-BREMSE

CVS growth opportunities driven by higher CPV despite limited volume growth

Truck production is flat and does not contribute to growth

Growth driver will be the current content per vehicle (CPV) with **traffic safety technologies until mid 2020s**

In the long run, CPV must be driven by technologies for **new trends automated driving, e-mobility and connectivity**

1) Incl. Turkey & Korea 2) Class 6 – 8 3) West & East Europe

New growth areas for CVS

Illustrative growth potential

Growth contribution of industry trends

Current CVS portfolio with focus on traffic safety perfectly fits market demands

In the future however, CVS will gain more content per vehicle growth with solutions for Automated Driving, Emission Reduction & E-Mobility and Connectivity

CVS offers both driver assistance and automated driving solutions

degree of automation →

CVS as a system supplier

- Braking
- Steering
- Sensors
- Level 1 and 2 functions

Air Disc Brake

Steering

Brake Control

CVS as vehicle dynamics supplier in consortium/partnership approach

- Braking
- Steering
- Vehicle dynamics
- Related redundancy

CV system competence

Brake control

Steering

Vehicle dynamics / Truck Motion Control

CVS offers automated driving solutions in a partnership approach - Actuation, Truck Motion Control and Redundancy are CVS' core competencies

Knorr-Bremse teams up with Continental to become a leading Automated Driving system supplier for commercial vehicles

- Function know-how based on passcar experience & carryover from passcar
- Hardware for localization (radar, camera) and Automated Driving Control Unit

- Truck- & trailer-specific vehicle dynamics: Vehicle guidance and stability control
- Fail-operational architecture
- Commercial vehicle-specific function development, application and release

Perception

Decision

Actuation

Redundancy

System integration 

Consumer Benefits

- Industry benchmark perception decision and actuation from the one source
- Superior performance through full-system approach
- Cost-optimized systems for commercial vehicles

Joint Project Scope

- Development of systems, components and functionality for Automated Driving
- Validation and release of complete highly Automated Driving systems
- Collaboration in joint project house

Truck Motion Control combines braking, steering and vehicle dynamics

- Successful M&A strategy
- KB global #2 steering supplier

KB driving steering innovation and vehicle content growth

Brake control

Steering

CV system competence

Combined competencies enable Truck Motion Control for safe vehicle control under all conditions

1) ADAS = Advanced Driver Assistance Systems

Different offerings for automated driving in a partnership approach

Stand-alone KB offering:

- Actuation, Truck Motion Control and Redundancy supplied by CVS

In partnership as a consortium:

- System with actuation, TMC, perception & hardware for the decision layer together with Continental as sensors and hardware partner
- Complete system including driver stack in collaboration with an AI partner in addition to the sensors and hardware partner

CVS fosters system competency and future content per vehicle increase potential

- General requirement for redundant Electric/Electronics architecture **increases content per vehicle** → redundancy ensures the safe vehicle movement even in case of the failure of a system relevant component
- The addition of **torque overlay steering** to CVS' portfolio adds content to the vehicle, more advanced steering solutions at higher price further increase content per vehicle

CVS will benefit from transition of integrated combustion engine trucks towards electrified trucks

Value structure of a truck

Illustrative

Impact for CVS

- Shift from ICE to EV vehicles offers **first mover advantage**
- More complex Electrics/Electronics architecture in electric vehicles **increases content per vehicle**
- KB products in „other systems“ and in energy storage offer **growth potential for CVS**
- Value reduction in drivetrain **does not affect CVS significantly**
- Potential content per vehicle increase via **electric vehicle adapted products** and **completely new product fields**

CVS founded an internal incubation unit for e-mobility solutions

Defining our role in the environment of the e-mobility ecosystem for commercial vehicles

Internal incubation unit set up for solutions for e-mobility

- Adaptation of existing product portfolio towards EV
- Definition of new product fields
- First product concepts already transferred to CVS business units
- 52 patents applications have been generated out of the CVS e-Cubator until today

CVS is offering a broad product portfolio for electric trucks

SELECTED
EXAMPLES

EV adapted portfolio

SELECTED
EXAMPLES

eCompressor

- Electric screw compressor
- Mid air demand eCompressor (rotary vane)
- Low air demand compressor for future EV requirements

EV brake control & vehicle dynamics

optimized and scalable holistic EV motion control, including energy recuperation

New EV product fields

Redundant power management system

EV brake resistor

Internationalisation: Global growth strategy focuses on North America penetration as well as Chinese and Indian market share expansion

Exploit leading position

Leverage local presence

Expand market share

Footprint

- Bendix acquisition as enabler for footprint expansion
- Sheppard acquisition to strengthen position as global system supplier of integrated steering and braking systems
- Capitalisation of technological expertise and brand
- Increased content per vehicle (technology as driver)
- Continuous cost structure improvements

- Intensive localisation with key local players
- Capitalise on strong position in OE channel
- Increased content per vehicle (technology as driver)
- Expand network to establish truck aftermarket
- Exploit position in electric bus

- Strong business growth with major Indian customers
- Expansion of product portfolio (dampers, drum brakes)
- Localisation programme creating scale effects

Notes: Based on German GAAP (HGB); FTE includes leasing (EOP) 1) Plant under expansion; Source: Knorr-Bremse information

R&D is at the very core of Knorr-Bremse's DNA

With over **12,000** patents¹⁾

Knorr-Bremse secures the future innovation roadmap. Largest patent portfolio in the industry²⁾

5 state-of-the-art R&D centres globally complemented by 23 local engineering entities with customer proximity

Focused & disciplined approach ensuring highest efficiency

Significant synergies between RVS and CVS

More than **80%** of the most industry-defining **innovations** over the last decades came from Knorr-Bremse

Extensive external network with over **15** R&D partnerships

Long-term targeted R&D ratio: **6-7%** of revenues³⁾

Notes: 1) Granted and applied patents; 2) Based on published number of patent families (granted and applied); 3) Knorr-Bremse 2020 R&D financial information based on IFRS;

...resulting in synergies and cross-proliferation

Cross-divisional R&D examples

Leveraging Knorr-Bremse's synergies & partnerships: centres of excellence as basis for sustained technology leadership

Globally Σ ~3.600 FTE¹⁾

Knorr-Bremse's innovations are supported by a **network of specialized development centres** with joint production and R&D

Notes: 1) FTE refers to number of employees in R&D function (includes engineers, technicians, merchants) EOP 2019, TCI allocated to Asia

Knorr-Bremse deploys structured and effective processes to drive innovation results

Knorr-Bremse R&D process

Knorr-Bremse's innovations are designed for clear customer impact...

- 💰 Optimisation of TCO¹⁾
- 🔧 Reduction of energy consumption, noise, weight
- 🔒 Safety & reliability
- 🌐 Connectivity, wireless solutions, ethernet
- 🔧 Adaption to regulation

...and maximum economic benefit for Knorr-Bremse

- 📈 All projects assessed based on NPV²⁾
- 🔍 Prioritisation of projects according to IRR³⁾
- 🕒 Optimise time-to-market
- 💰 Short payback time of investment
- ✅ Ability to leverage innovation across customer portfolio

Notes: 1) TCO refers to total cost of ownership; 2) NPV refers to net present value; 3) IRR refers to internal rate of return

Close co-operation with customers & strategic partners

Government partnerships

- Shift2Rail: EU supported initiative amongst suppliers and OEMs to jointly develop an efficient transportation system
- VDA¹⁾ participation in ~20 committees
- ✓ Design of norms/standards
- ✓ Early anticipation of industry trends
- ✓ Grants/subsidies

Partnerships with Universities

- Research cooperations
- ✓ Access to future talent
- ✓ Scouting of new technologies at minimal cost

VC partnerships with Start-ups

- Partnerships with accelerators
- Investment in start-ups
- ✓ Technology access
- ✓ R&D acceleration

Acceleration of
PRODUCT INNOVATION
in digital age requires
DIVERSE PARTNERSHIPS
to outperform competitors

JVS with OEMs / technology partners

- 18 joint ventures globally
- Joining complementary competences to extend product and service lines, and capacities
- ✓ IP protection
- ✓ Local presence
- ✓ Flexible solutions for customers

The basis of our responsibility

Our values

Growing with **Values.**

- Entrepreneurship
- Technological Excellence
- Reliability
- Passion
- Responsibility

UN Global Compact

Commitment to ten basic principles:

- Human rights
- Labor standards
- Environmental protection
- Anti-corruption

CR Policy

- Comprises our understanding of Corporate Responsibility
- Sets down guidelines for our CR focus areas
- Points out the main focus of our efforts to realize social and environmental responsibility

Our CR policy and focus areas

Strategy and management

We aim for **sustainable value creation**. By this we understand achieving long-term economic success while at the same time acting responsibly towards our employees and business partners as well as the environment and society.

We are committed to **sustainable corporate governance** that includes environmental and social aspects in strategic planning, management and corporate processes.

We act and work according to **legal and ethical principles** laid down in our Group-wide Code of Conduct.

Products and partners

We consistently work on developing **innovative products** and solutions that combine a high degree of customer value with a contribution to sustainable development. Safety is always our overriding goal.

We **work closely with our customers and suppliers** to jointly ensure continuous improvement of product quality and minimal undesirable impact on the environment and society.

We take into account and support the activities of our **business partners aimed at improving their environmental and social compatibility**.

Commitment and society

We are involved, as a member of society, in **social issues** and are engaged world-wide as a **good corporate citizen**. We supplement the activities of the charitable organization Knorr-Bremse Global Care e.V. with social projects implemented directly at our production sites (Local Care).

We encourage and support **social involvement on the part of our employees**.

We see ourselves as **partners for the regions** in which we live and work, and we support their long-term development.

Employees and governance

We create an attractive working environment in which the principles of **mutual trust, team-work, diversity and equality of opportunity** as well as fair and respectful treatment of each other are recognized and practiced.

We offer a **safe and healthy working environment** and enable our employees to develop their **own individual potential**.

We conduct an ongoing **dialogue with our managers** on the subject of value-oriented, sustainable corporate governance.

Environment and climate

We accept our **responsibility for ensuring a clean environment and protecting the climate** and operate in compliance with our **HSE Policy** (Healthy, Safety and Environment).

We have set ourselves the goal of handling **resources in a responsible manner**, consistently reducing **CO₂ emissions**, **minimizing** and where possible **avoiding** undesirable **impact** on nature and the environment and actively using opportunities to **protect the environment**.

We are concerned to optimize the **environmental compatibility** of our products across their **entire life-cycle**.

Communication and co-operation

We seek constructive **dialogue with our stakeholders** and provide them with regular and transparent updates on our sustainability activities.

We support social, educational and environmental projects and enter into **partnerships with organizations** that contribute towards sustainable development.

In 2018 Knorr-Bremse selected its Core Sustainable Development Goals (SDGs)

Carbon neutrality from YE2021

Carbon neutrality from 2021

- Climate strategy with ambitious targets
 - 50% CO₂ emission reduction by 2030
 - Carbon-neutrality at KB sites since YE21
- Additionally: Increasing purchase of renewable energy and carbon offsetting
- Starting point of CO₂ emissions in 2018 at 143,000 tons

Contribution by our products

- Rail is a cornerstone of eco-friendly transport solutions
- Truck products support lower fuel consumption
- ~9% of KB's revenues are driven by remanufactured and recycled products
- Circular economy supported by remanufactured and overhauled products

Focus on 5 SDGs

- In 2018 ~150 top managers of KB committed to 5 core United Nations Sustainability Development Goals
- Sponsorship of Executive Board Members to drive initiatives around the KB world

Knorr-Bremse AG is part of the new **DAX 50 ESG index**

The KB climate strategy 2030

- Reduction measures for 2020
 - Energy efficiency
 - Own production
 - Green power supply
 - Compensation
- Governance for the implementation
 - House of Climate Initiative Group
- Implementation Control
 - Integration with existing financial controlling process
 - Steering of the target achievement via to be defined sub-targets

Fostering ESG ambitions: high ESG commitment embedded in newly defined strategy and remuneration

Future objectives		
Environment	Climate strategy	<ul style="list-style-type: none"> Carbon neutrality (incl. off-setting) at KB sites by 12/21 Triple own photovoltaic capacity by 2030 Extend to Scope 3 target setting
	Circular economy	<ul style="list-style-type: none"> Higher share from remanufactured/ recycled products (currently: ~10% of revenues)
Social	Diversity	<ul style="list-style-type: none"> Improve gender balance in global workforce and mgmt.
	Safety at work	<ul style="list-style-type: none"> Workplace accidents <1 per 200,000 hours worked
	Social projects	<ul style="list-style-type: none"> Global Care: Strengthen strategic partnerships Local Care: Increase employee engagement
Governance	Compliance	<ul style="list-style-type: none"> Global anti-corruption training for high-risk employee groups; certification of CMS design and effectiveness; strengthen Human Rights processes
	Mgmt. remuneration	<ul style="list-style-type: none"> Stringent cascading of ESG targets

New KPI in mgmt. compensation system as of 1.1.22 (20% STI weight)

Knorr-Bremse takes active part in corporate memberships throughout the world

IMPORTANT NOTICE

This presentation has been prepared for information and background purposes only. It does not constitute or form part of, and should not be construed as, an offer of, a solicitation of an offer to buy, or an invitation to subscribe for, underwrite or otherwise acquire, any securities of Knorr-Bremse AG (the "Company") or any existing or future member of the Knorr-Bremse Group (the "Group"), nor should it or any part of it form the basis of, or be relied on in connection with, any contract to purchase or subscribe for any securities of the Company, any member of the Group or with any other contract or commitment whatsoever. This presentation does not constitute and shall not be construed as a prospectus in whole or in part and has not been reviewed or approved by any regulatory or supervisory authority. By attending the oral and video presentation you agree to be bound by the following limitations and conditions.

Any assumptions, views or opinions (including statements, projections, forecasts or other forward-looking statements) contained in this presentation represent assumptions, views or opinions of the Company as of the date indicated and are subject to change without notice. The Company disclaims any obligation to update or revise any statements, in particular forward-looking statements, to reflect future events or developments. All information not separately sourced is derived from Company's data and estimates. Information contained in this presentation related to past performance is not an indication of future performance. The information in this presentation is not intended to predict actual results, and no assurances are given with respect thereto.

The information contained in this presentation has not been independently verified, and no representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information or the opinions contained herein, and no reliance should be placed on it. Neither the Company nor its advisers and any of their respective affiliates, officers, directors, employees, representatives and advisers, connected persons or any other person accepts any liability for any loss howsoever arising (in negligence or otherwise), directly or indirectly, from this presentation or its contents or otherwise arising in connection with this presentation. This shall not, however, restrict or exclude or limit any duty or liability to a person under any applicable law or regulation of any jurisdiction which may not lawfully be disclaimed (including in relation to fraudulent misrepresentation).

Historical financial or operative information contained in this presentation, if not taken or derived from our accounting records or our management reporting or unless otherwise stated, is taken or derived from financial statements prepared in accordance with either IFRS (for the financial years 2014-2019) or German GAAP (HGB) (for the financial years 1989-2019), each as indicated in this presentation, for the respective period. The financial statements prepared in accordance with IFRS may deviate substantially from (segmental or other) information in the financial statements prepared in accordance with German GAAP (HGB) and, thus, may not be fully comparable to such financial statements. Accordingly, such information prepared in accordance with German GAAP (HGB) is not necessarily indicative for the future results of operations, financial position or cash flows for financial statements prepared in accordance with IFRS. All amounts are stated in million euros (€ million) unless otherwise indicated. Rounding differences may occur. This presentation contains certain supplemental financial or operative measures that are not calculated in accordance with IFRS or German GAAP (HGB) and are therefore considered as non-IFRS measures. The Group believes that such non-IFRS measures used, when considered in conjunction with (but not in lieu of) other measures that are computed in accordance with IFRS, enhance the understanding of our business, results of operations, financial position or cash flows. There are, however, material limitations associated with the use of non-IFRS measures including (without limitation) the limitations inherent in the determination of relevant adjustments. The non-IFRS measures used by us may differ from, and not be comparable to, similarly-titled measures used by other companies.

This presentation includes "forward-looking statements". The words "anticipate," "assume," "believe," "estimate," "expect," "intend," "may," "can," "could," "plan," "project," "should," "plan" and similar expressions are used to identify forward-looking statements. All statements other than statements of historical facts included in this presentation, including, without limitation, those regarding the Company's financial position, business strategy, plans and objectives of management for future operations (including cost savings and productivity improvement plans) are forward-looking statements. By their nature, such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements of the Company to be materially different from results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Company's present and future business strategies and the market environment in which the Company will operate in the future. These forward-looking statements speak only as of the date of this presentation. Each of the Company, the relevant Group entities and their respective agents, employees and advisers, expressly disclaims any obligation or undertaking to update any forward-looking statements contained herein. You are urged to consider these factors carefully in evaluating the forward-looking statements in this presentation and not to place undue reliance on such statements.

To the extent available, the industry and market data contained in this presentation has come from official or third party sources. Third party industry publications, studies and surveys generally state that the data contained therein have been obtained from sources believed to be reliable, but that there is no guarantee, representation or warranty (either expressly or implied) of the accuracy or completeness of such data or changes to such data following publication thereof. Third party sources explicitly disclaim any liability for any loss or damage, howsoever caused, arising from any errors, omissions or reliance on any information or views contained in their reports. Accordingly, undue reliance should not be placed on any of the industry or market data contained in this presentation.
