The Knorr-Bremse leadership team

Dr. Jan Mrosik
CEO

- 2021-present: Knorr-Bremse | CEO
- 2019-2020: Siemens AG | COO Digital Industries
- 2016-2019: Siemens AG | CEO Digital Factory Division
- 2014-2016: Siemens AG | CEO Energy Management Division
- 2011-2014: Siemens AG | CEO Smart Grid Division
- PhD in Engineering

Professional Experience 24

Start at Knorr-Bremse 01/21

Frank Markus Weber
CFO

- 2020-present: Knorr-Bremse | CFO
- 2016-2020: Daimler AG | Head of Corporate Development
- 2019-2020: Mercedes-Benz AG | Head of Transformation
- 2013-2016: Daimler Trucks Asia | CFO
- 2011-2013 Mitsubishi Fuso Trucks & Bus Corporation | CFO
- Diploma in Business Administration

Professional Experience 24

Years with Knorr-Bremse 1

Dr. Peter Laier
Head of CVS

- 2016-present: Knorr-Bremse | Head of CVS
- 2014-2015: Benteler International | COO
- 2013-2014: Osram Licht | CTO
- 2000-2012: Continental | Executive Vice President
- PhD and Diploma in Mechanical Engineering

Professional Experience 24

Years with Knorr-Bremse 5

Dr. Jürgen Wilder
Head of RVS

- 2018-present: Knorr-Bremse | Head of RVS
- 2015-2017: DB Cargo AG | CEO
- 2013-2015: Siemens AG | CEO Mainline Transportation Global Business Unit
- 2011-2013: Siemens AG | Head of Strategy Infrastructure and Cities Sector
- PhD in Physics

Professional Experience 20

Years with Knorr-Bremse 3

Notes: RVS - Rail Vehicle Systems; CVS - Commercial Vehicle Systems

Knorr-Bremse – One of Germany’s most successful industrial companies

Family-Ownership,
heritage and unique DNA

Global market leader
for braking systems

Shared pneumatics experience
between RVS and CVS

Technology
leadership

2020 Key financials

| | | | | |
|--|-------------------------------------|-----------------------------------|-----------------------------------|------------------------------|
| Sales € 6.2bn (>9% CAGR ¹) since 1989) | EBITDA € 1.1bn (margin 18.0%) | EBIT € 0.8bn (margin 13.2%) | R&D € 396m (~6.4% of sales) | Aftermarket ~37% of sales |

Corporate values

Entrepreneurship

- Knorr-Bremse regards challenges as opportunities for generating long-term, profitable growth

Passion

- We are passionate about what we do

Reliability

- Safety is the basis for everything we do – and we do not compromise on this

Responsibility

- As a globally operating company Knorr-Bremse incorporates a workforce with a wide range of cultures and strengths

Technological Excellence

- Knorr-Bremse stands for technological expertise and competence in all company divisions

Agenda

- Introduction
- **Key Company Highlights**
- Rail Vehicle Systems (RVS)
- Commercial Vehicle Systems (CVS)
- R&D Focus
- Financials
- Sustainability
- Capital Markets Summary
- Appendix

Business model of Knorr-Bremse at a glance

GLOBAL #1

- Market leader in brake systems rail (~50%)
- Market leader in brake systems truck (~42%)
- Leading supplier of other safety-critical rail and commercial vehicle systems protected by high entry barriers

MARKET OUTPERFORMANCE

Consistent outperformance of attractive end-markets driven by

- Megatrends and
- Increasing content per vehicle and aftermarket

RESILIENCE

Resilient business model, supported by

- Broad geographical and customer diversification
- High aftermarket exposure
- Strong localization

SUPERIOR FINANCIAL PROFILE

- Strong growth, profitability and cash generation with high earnings visibility
- Strong balance sheet & financing structure

INDUSTRY INNOVATOR

- Driving innovation in mobility and transportation technologies for 115 years
- Quality excellence and edge in connected systems

Global #1 – Leading supplier of safety-critical rail and commercial vehicle systems

RVS offering (2020: 54% of sales, 67% of EBITDA)

| | | | | |

Our customers

Example car builders

Example operators

Notes: 2020 financials based on IFRS excluding consolidation/other; 1)HVAC – Heating, ventilation and air conditioning; 2)LRV – Light rail vehicle; 3) Joint Venture between Bosch, Knorr-Bremse and ZF providing a range of workshop services relating to the repair and maintenance of commercial vehicles across all brands; 4) OEM – Original Equipment Manufacturer

Global #1 – ... protected by high barriers to entry

Barriers to entry for RVS and CVS markets

Regulation / homologation

Low volumes, high number of variants with high level of customisation

High initial capital requirements, highly protected IP landscape and economies of scale

Highest quality and safety requirements

Long life-cycle with resulting customer loyalty, long gestation period for aftermarket

Same industry leaders since creation of the industry over 100 years ago

Market specifics

RVS

Only supplier world-wide

certified for all global and local standards and norms (GOST, UIC, AAR, ARA)

Vast array of product variants to homologate

(e.g. >100k active brake articles by Knorr-Bremse)

Homologation time typically 4-8 years

for recent Knorr-Bremse products

CVS

One of only two suppliers able to offer harmonised products globally

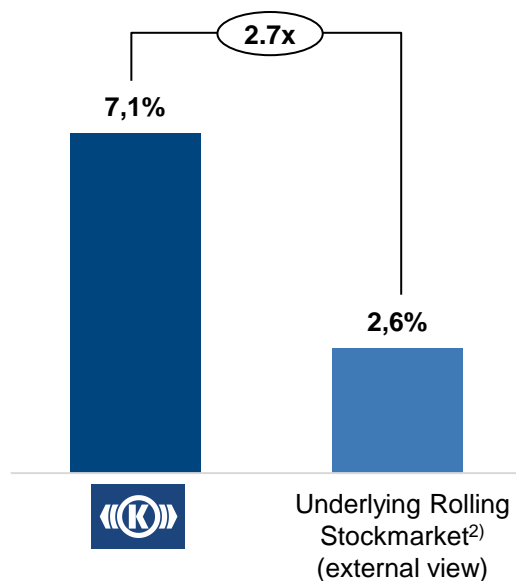

Continuously increasing safety and emission standards requirements

Market outperformance – Knorr-Bremse is well positioned to deliver continued growth above rail industry levels

Strong track record of industry outperformance

CAGR (2010-2019) RVS sales¹⁾ (HGB) and market

Notes: 1) Based on German GAAP (HGB); 2) Unife: average market growth 2015-2017 and 2021-2023

Growth drivers

Asia Growth

- China rail market, esp. AM
- Mass urban transport
- Expansion and upgrade of Indian rail rolling stock
- CRRC international expansion

Outsourcing

- Outsourcing from rail OEM's (trend towards de-verticalisation)

Digitisation

- Increasing demand for connected systems and other digital solutions

Aftermarket

- Global rail services and aftermarket for rolling stock

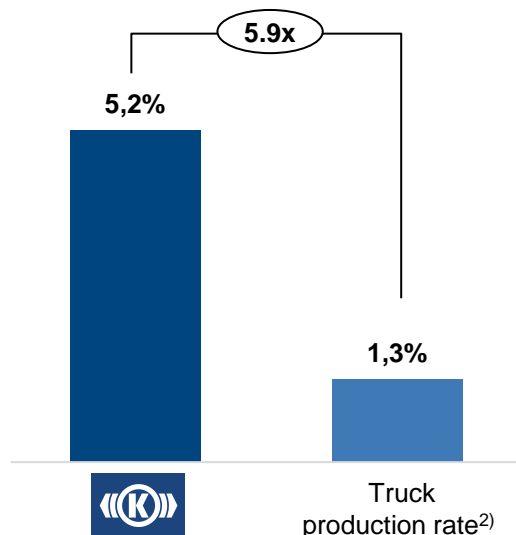

- Certification capability for all global core markets
- Partner of many OEMs, operators and large installed base
- Leading control and monitoring technology
- Innovation leader of rail systems

Market outperformance – Strong growth in content per vehicle driven by continued market outperformance

Knorr-Bremse with strong track record of industry outperformance

CAGR (2010-2019) CVS sales¹⁾ (HGB) and market

Notes: 1) Based on German GAAP (HGB); 2) CAGR 2010-2019 Global Truck and Bus market excluding aftermarket and Trailer; Source: LMC Automotive Global Commercial Vehicle World Truck Query Q3 2019 3) Addressable Truck, Bus and Trailer OE market for "Brake Systems & Vehicle Dynamics (incl. Automated Driving)", "Energy Supply & Distribution" and "Fuel Efficiency" 4) Advanced Driver Assistance Systems/Highly Automated Driving; Source: Knorr-Bremse information; LMC Automotive for truck production rate

Key future growth drivers

Megatrends and conversion of regulatory standards

- Global megatrends provide attractive growth opportunities
- E-mobility, autonomous driving, new emission regulations, etc.
- Disc brakes replacing drum brakes

Content increase

- Traffic Safety
- Fuel efficiency

Market share gains

- Product upgrading
- Regional expansion strategy

- Market leader in a consolidated industry with only 2 global players
- A strong technology innovator shaping the industry
- Multiple trends driving growth independent of underlying market dynamics
- Ideally positioned to win in market defining trend towards ADAS/HAD⁴⁾

Resilience – Strong business model

Strong resilience of growth and profitability

Different economic cycles

- ~50/50 split RVS and CVS (by sales)
- **Different** market drivers
 - short vs. long cycle
 - private vs. public investment
- **High sales visibility** in RVS

High aftermarket share

- ~37% total sales¹⁾
 - 45% of RVS sales¹⁾
 - 27% of CVS sales¹⁾
- **Large installed base**

Diversified customer base

- Partner to **all** major local and **global players**

Global footprint and local content

- High level of **local content** in manufacturing, purchasing and R&D
- Presence in **30+** countries with **100+** sites
- ~**80%** of employees **outside Germany**
- ~**15%** of employees in **China**, catering to local market

Notes: 1) Based on IFRS in 2020

Resilience – Attractive aftermarket business with comprehensive service offering drives profitability and contains high future potential

Aftermarket is the growth and resilience backbone

Key features

Annuity-like

- Regulated maintenance intervals
- Leverages high installed base
- 20-30 years long relationships

Close to the customer

- RVS
 - 36 service centres²⁾
 - 20 service locations at customers' premises
- CVS
 - >1,600 certified service partners
 - >700 Alltrucks workshops

Strong customer retention (homologation)

- High switching costs
- Focus on safety and quality
- IP protection

Innovative business model

- New connectivity-based business models
- Preventive
- Predictive

Notes: 1) Total CVS aftermarket sales and independent aftermarket sales EMEA (excl. South Africa & Skach) as proxy for the global split; 2) Does not include service locations at customers' premises;

Synergistic business – Technology and scale benefits between Rail and Commercial Vehicles

Interdependence of RVS and CVS

- Same core technologies
- Shared components and materials
- Co-located R&D centers
- Shared overhead functions

Future technology development

- Shared research centres
- ADAS¹⁾ / HAD²⁾ technology transfer
- Condition monitoring, condition-based and predictive maintenance
- Electrification and connectivity
- Electromechanical brake systems

Differences of RVS and CVS

- Serial business (CVS) vs. project business (RVS)
- Different customer group

RVS

CVS

Electric compressors
Friction materials
Air disc brakes (ADB)

Driver assistance
Trailer control valve
Electronic air supply

Notes: 1) ADAS – Advanced driver assistance system; 2) HAD – Highly automated driving

Strong R&D secures our Technology leadership

~12,000

single patents granted and applied

Targeted long-term R&D ratio

5 – 6 %

of revenue

~3,800

R&D employees¹⁾

1) FTE at YE20

Industry trends

addressing industry trends with superior technological solutions

Commercial Vehicle Systems

Traffic Safety

Emission Reduction
+ E-Mobility

Automated Driving

Connectivity

Rail Vehicle Systems

Transport Capacity

Availability

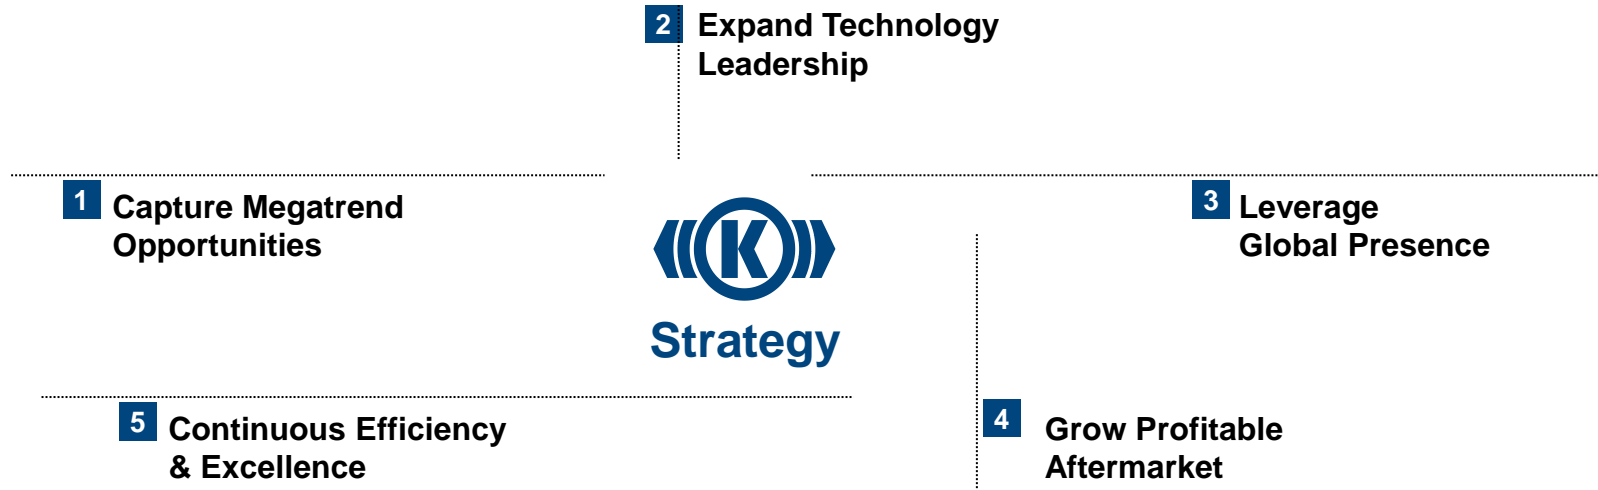

Eco Friendliness

Life-Cycle
Management

Clear vision for future value creation

Targets until 2022¹⁾: organic revenue growth of 4.5-5.5% p.a. and EBITDA margin expansion by +150bps

1) Base year FY17

Agenda

- Introduction
- Key Company Highlights
- **Rail Vehicle Systems (RVS)**
- Commercial Vehicle Systems (CVS)
- R&D Focus
- Financials
- Sustainability
- Capital Markets Summary
- Appendix

RVS – Outperformance and resilience

1 Market leadership

Global market leader → scale advantage

2 Technology leadership

Strong technology innovator shaping industry standards, return on R&D spend outperforming peers

3 High barriers to entry

Safety-critical products with significant homologation barriers, RVS only supplier certified for all standards and norms globally

4 Strong growth profile

Attractive transportation and mobility end-markets, **long track record of outperforming underlying markets** – through both OE, AM business and abroad product portfolio

5 Resilience

Steadily growing business through customer/region/product mix, **strong aftermarket**

6 Profitability

Outstanding profit margins and track record of margin expansion and disciplined cost management

RVS – the leading safety critical systems supplier for rail with a track record of market outperformance

Highlights

Rail brake systems supplier globally¹⁾

Rail entrance systems supplier globally¹⁾

HVAC systems supplier globally¹⁾

Global brakes market share¹⁾

Present in 50-55% of global installed base²⁾

c.16k employees

2020 key financials

€ 3.3bn sales

5.1% CAGR 2010-2020³⁾

€ 764m EBITDA (22.9% margin)

€ 637m EBIT (19.1% margin)

45% aftermarket share⁴⁾

2020 sales split

by region (€ 3.3bn)

by channel

Notes: BiRUG sales allocated proportionally between OE and aftermarket; 1) RVS market share estimates for OE and aftersales without labour; 2) All active rail vehicles without freight cars with a minimum of one Knorr-Bremse system related to brakes, entrance systems and HVAC installed; 3) Total reported RVS sales growth including OE and aftermarket based on German GAAP (HGB) 2010-2016; from 2016 IFRS 4) BiRUG sales allocated proportionally between OE and aftermarket

Deep dive into RVS braking technologies of Knorr-Bremse

Key elements of a braking system in RVS

Underlying global rail market with steady and robust growth

Development of markets

Market volume Brakes, Doors, HVAC, incl. labour [€bn, CAGR in %]¹

World

Europe / Africa

North & South America

Asia Pacific

AM OE

1) Based on internal analyses for the relevant segments, taking into account the study "World Rail Market" (2018) by the UNIFE

The enormous brake distances in Rail require outstanding braking performance

Different braking distances at 80km/h

Different braking distances at 330km/h

Global Tier-1 partner of choice for OEMs and rail operators in all regions

Top 10 customers 2019 (% of sales)¹⁾

Top 10 = 51% of total RVS sales 2019

■ OEMs ■ Rail operators

1) Share of top 10 customers as % RVS sales 2019 may not add up due to rounding

Other major Knorr-Bremse customers

>>300 Relevant rail operator customers

>50 Relevant OEM customers

RVS is the global #1 across key product categories

Global market share 2019 ¹⁾ (% of sales)

Brake systems (~68% of RVS sales)

Entrance systems (~9% of RVS sales)

HVAC (~7% of RVS sales)

Notes: Market share estimates are rounded to the nearest multiple of 5%; For competitors a price estimate was used; 1) Market share estimates for OE and aftermarket without labour

Historic development of OE and AM business

Strong growth both in OE and AM

RVS sales by type (until 2017 German Gaap/HGB, 2018-2019 IFRS, €bn, 2010-2020) ¹⁾

1) BilRUG sales allocated proportionally between OE and aftermarket; 2) RVS sales split 2019 may not add up due to rounding

Expected development of Aftermarket (RailServices) business

Characteristics aftermarket

- Long customer relationships & loyalty of >30 years
- Through tear & wear very attractive, high margin business
- Underlying global Rail market +2.3%²⁾

Development aftermarket

- Higher focus on **life-cycle costs** and **availability commitments** (contractually binding)
- **Digitization** with new players
- Increased business demand for **reduced energy** consumption

RVS aftermarket

Revenue development (€bn)¹⁾

- **Global footprint with a strong local presence**
- **High installed base**
- **High customer retention rate**
- **Additional data driven business models**
- **Development of energy efficient solutions**

Notes: 1) Revenue based on external (third party) sales German GAAP (HGB); Values recognize FX rates; 2) Unife: expected average market growth until 2025

RVS is the only supplier world-wide certified for all local standards and norms

Market protected by unique level of complexity ...

| | | |
|--|---|----------|
|  | Major global standards | 4 |
|  | Unique configurations for vehicle types | 7 |
|  | Brake subsystems | 3 |
|  | Safety-critical components | >100 |
|  | Country- and customer-specific variants | Multiple |
|  | 100k active brakes articles to homologate | |

... and long homologation time for each component

| Standard ¹⁾ | Key regions | Typical time-to-market | |
|---|---|---|---|
| | | Development (yrs) ²⁾ | Certification (yrs) ²⁾ |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |

Combination of IP ownership and homologation creates high barriers to entry

1) GOST based on recent homologation process, other norms based on expert estimates by Knorr-Bremse; 2) Estimated average required "time-to-market" of a basic freight car solution

Agenda

- Introduction
- Key Company Highlights
- Rail Vehicle Systems (RVS)
- **Commercial Vehicle Systems (CVS)**
- R&D Focus
- Financials
- Sustainability
- Capital Markets Summary
- Appendix

CVS with high-quality business model – Outperformance and resilience

1 Market leadership

Global market leader → scale advantage

2 Technology leadership

Technology leader with innovation power shaping major industry trends

3 High barriers to entry

Safety-critical highly technological products
One of only two suppliers with global technology know-how and capabilities

4 Strong growth profile

Attractive end-market in goods and people transport (incl. buses)
Continuously **outperforming markets** through content and market share growth

5 Resilience

Strong aftermarket share and **content per vehicle growth**
Strength in cost efficiency

6 Profitability

Attractive margins based on differentiation, scale advantage and consequent cost management

CVS – One of two global leaders with an outstanding position in braking and safety-relevant systems

Highlights

Global market position¹⁾

Technology leader

Automated Driving)", "Energy Supply & Distribution" and "Fuel Efficiency"; excluding aftermarket; Knorr-Bremse data based on market intelligence and experts estimate in 2019; 2) Air Disc Brake, Valves / Pedal Unit, Actuators, Foundation Drum Brake, Steering, ABS, EBS, ESP, DAS, ELC; including segment Others; 3) Compressors, Air Treatment; 4) Vibration Dampers, Engine Air Control, Transmission - Gear Actuation, Transmission - Clutch Actuation;

Historic development of OE and AM business

Strong growth both in OE and AM

CVS sales by type (HGB, €bn, 2010-2017)¹⁾ 2018-20 IFRS

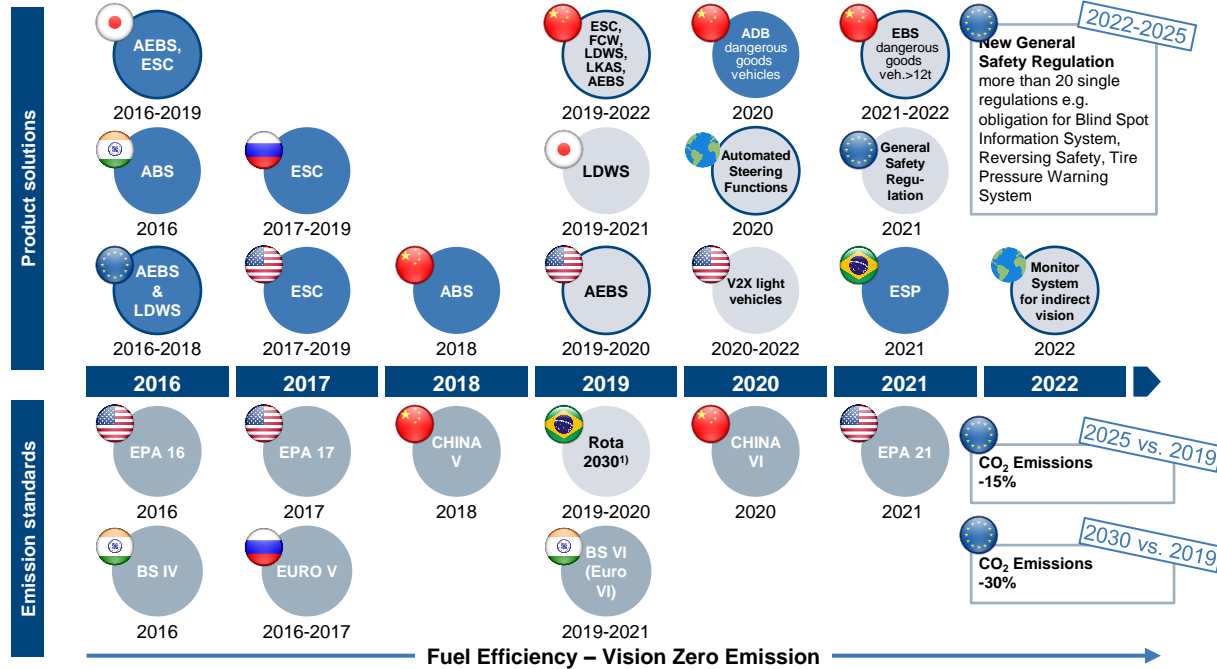

Notes: 1) BilRUG sales allocated proportionally between OE and aftermarket; 2) Global Truck and Bus market excluding aftermarket and Trailer; Source: Knorr-Bremse information and internal market research; IHS for truck production rate; 3) CVS sales split may not add up due to rounding

Conversion in legislation drives the global adoption of technologies provided by Knorr-Bremse

Convergence of legislation creates growth opportunities for products respectively

Legislative decisions foster demand for Knorr-Bremse solutions

● Emission standards ● Traffic and safety ● Automated Driving ● Expected/in discussion
 Notes: 1) Approved in May 2018, government intends to stimulate efficiency & vehicle safety; 2) European Commission: COM(2018) 286 & Vulnerable Road Users Directive (VRUD); 3) General Administration of Quality Supervision, Inspection & Quarantine of People's Republic of China, technical specification for safety of power driven vehicles operating in roads; Source: Knorr-Bremse internal market research; Roland Berger market study: Trends in the truck & trailer market (August 2018)

Continued content growth expected in all regions

World

Europe

North America

Asia / Pacific

Growth of content per vehicle mainly driven by local regulation and total cost of ownership

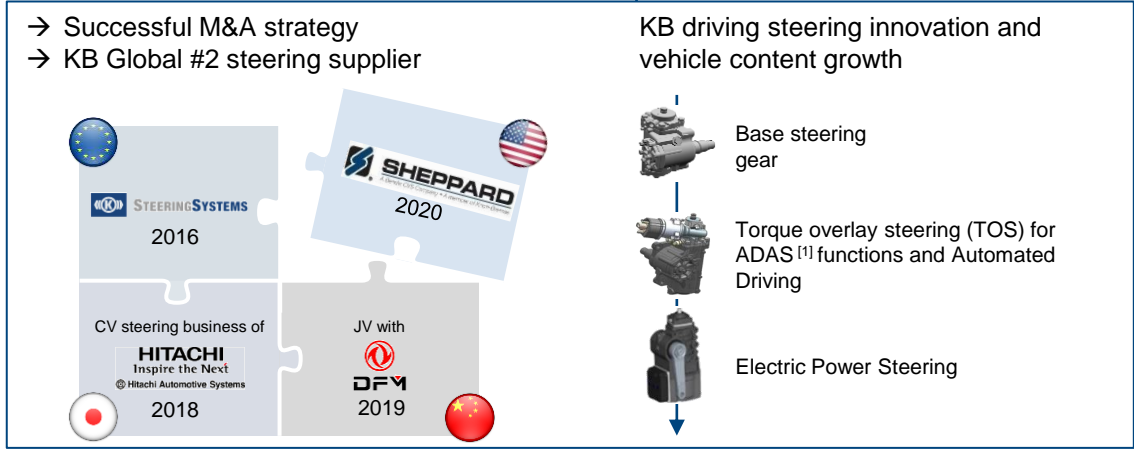

% CAGR Content per Vehicle 2010 - 2016 / 2016 - 2022

Notes: CPV data rounded to nearest €25; 1) CPV for four specific categories analysed in Roland Berger market study: Trends in the truck & trailer market (August 2018): Braking systems, Powertrain, Steering and ADAS; Roland Berger scope excludes Valves / Pedal Unit, Actuators, Compressors, Air Treatment and Others; 2) Implied: applying Knorr-Bremse proprietary market growth CAGR 2010-2016 (made comparable to Roland Berger's market definition) to Roland Berger's 2016 absolute CPV data; Source: Knorr-Bremse internal market research for the CAGRs 2010-2016 and commentary; Roland Berger market study: Trends in the truck & trailer market (August 2018) for 2016 and 2022 CPV data as well as for the CAGRs 2016-2022; Data for Asia/Australia for 2016-2022 calculated based on separate Roland Berger data for (i) Asia/Pacific without China and (ii) China

Strategy: combined braking and steering system

- Successful M&A strategy
- KB Global #2 steering supplier

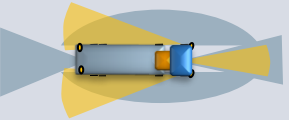

Combined braking and steering for superior vehicle dynamic control and obligatory redundancy

Notes: 1) ADAS = Advanced Driver Assistance Systems

Knorr-Bremse with clear strategy for Automated Driving

| Steps | Action | Provider |
|--|--|---|
| 1 Perception  | Complete environment perception of truck & trailer  | Partner +  |
| 2 Decision  | Continuous situation analysis for motion planning  HAD ¹⁾ ECU ²⁾ Situation analysis Trajectory planning Truck Motion Control (GSBC ³⁾  | Partner +  |
| 3 Actuation  | Coordinated interaction of actuators for vehicle dynamics  Actuators physically perform actions such as applying brakes, steering or changing lanes |  |

4 Redundancy concept

Safety-relevant functions backed up by redundancy:

- Control
- Sensors
- Steering
- Braking
- Electric on-board net

Continuous vehicle dynamic control ensured

System supplier – one interface for customers as the system integrator

5

Optimally designed for commercial vehicle needs

Cost efficient redundant system architecture

Profound ADAS⁴⁾ and truck dynamics expertise as solid basis for HAD¹⁾ up to level 5

Notes: 1) Highly Automated Driving; 2) Electronic Control Unit; 3) Global Scalable Brake Control; 4) Advanced Driver Assistance Systems; Source: Knorr-Bremse information

Knorr-Bremse teams up with Continental to become a leading Automated Driving system supplier for commercial vehicles

- Function know-how based on passcar experience & carryover from passcar
- Hardware for localization (radar, camera) and Automated Driving Control Unit

- Truck- & trailer-specific vehicle dynamics: Vehicle guidance and stability control
- Fail-operational architecture
- Commercial vehicle-specific function development, application and release

Perception

Decision

Actuation

Redundancy

System integration 

Consumer Benefits

- Industry benchmark perception decision and actuation from the one source
- Superior performance through full-system approach
- Cost-optimized systems for commercial vehicles

Joint Project Scope

- Development of systems, components and functionality for Automated Driving
- Validation and release of complete highly Automated Driving systems
- Collaboration in joint project house

Internationalisation: Global growth strategy focuses on North America penetration as well as Chinese and Indian market share expansion

Exploit leading position

Leverage local presence

Expand market share

Footprint

- Bendix acquisition as enabler for footprint expansion
- Sheppard acquisition to strengthen position as global system supplier of integrated steering and braking systems
- Capitalisation of technological expertise and brand
- Increased content per vehicle (technology as driver)
- Continuous cost structure improvements

- Intensive localisation with key local players
- Capitalise on strong position in OE channel
- Increased content per vehicle (technology as driver)
- Expand network to establish truck aftermarket
- Exploit position in electric bus

- Strong business growth with major Indian customers
- Expansion of product portfolio (dampers, drum brakes)
- Localisation programme creating scale effects

Notes: Based on German GAAP (HGB); FTE includes leasing (EOP) 1) Plant under expansion; Source: Knorr-Bremse information

Agenda

- Introduction
- Key Company Highlights
- Rail Vehicle Systems (RVS)
- Commercial Vehicle Systems (CVS)
- **R&D Focus**
- Financials
- Sustainability
- Capital Markets Summary
- Appendix

R&D is at the very core of Knorr-Bremse's DNA

With over **12,000** patents¹⁾

Knorr-Bremse secures the future innovation roadmap. Largest patent portfolio in the industry²⁾

5 state-of-the-art R&D centres globally complemented by 23 local engineering entities with customer proximity

Focused & disciplined approach ensuring highest efficiency

Significant synergies between RVS and CVS

More than **80%** of the most industry-defining **innovations** over the last decades came from Knorr-Bremse

Extensive external network with over **15** R&D partnerships

Long-term targeted R&D ratio: **5-6%** of revenues³⁾

Notes: 1) Granted and applied patents; 2) Based on published number of patent families (granted and applied); 3) Knorr-Bremse 2020 R&D financial information based on IFRS;

R&D portfolio synergies between RVS and CVS...

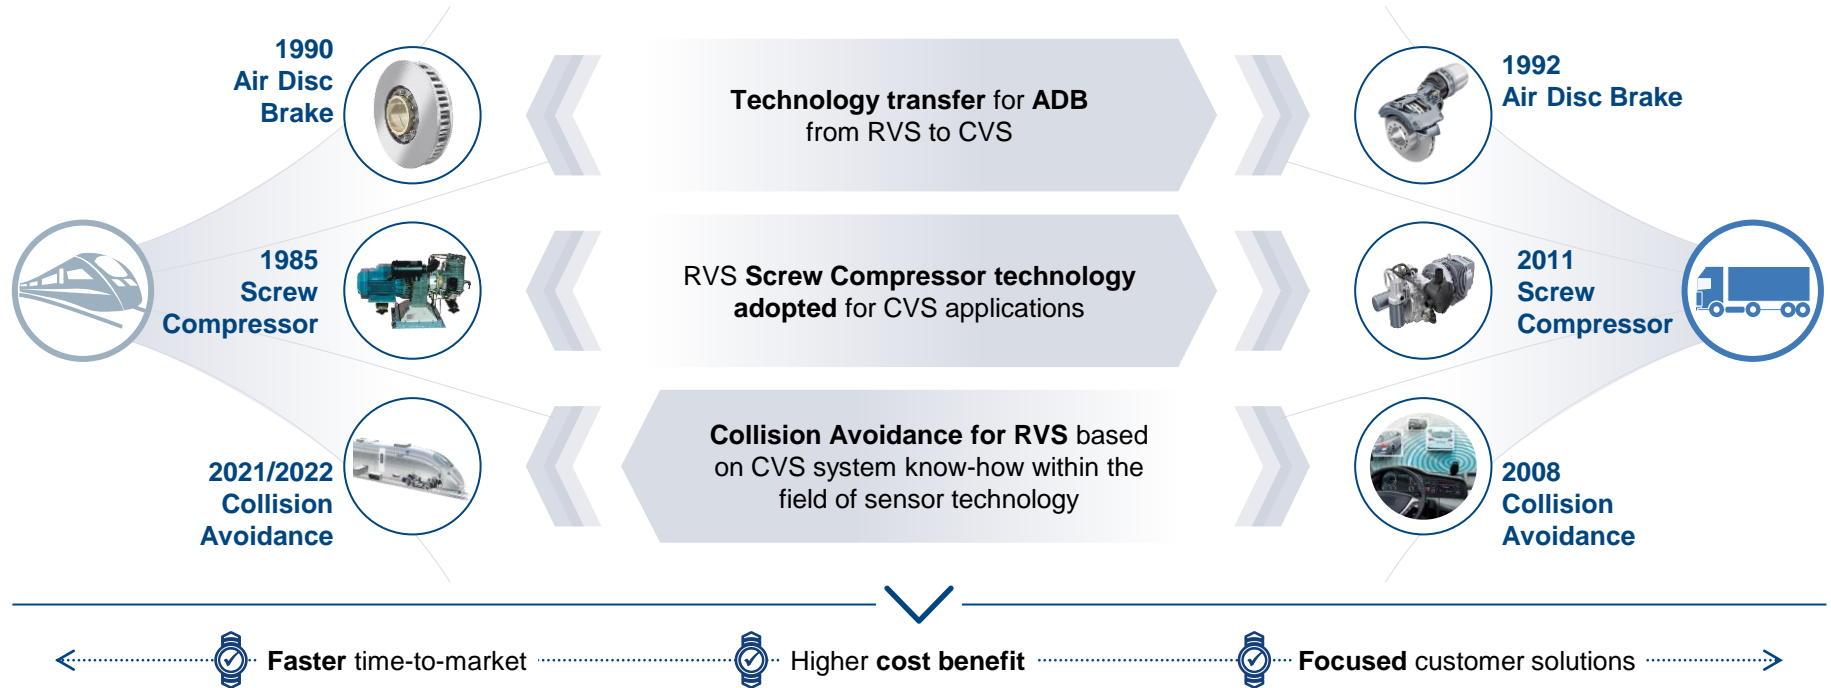

| Services | Vehicle control & automated driving  | Chassis systems  | Braking  | Driving  | Energy Supply & Distribution  |
|---|---|---|---|---|--|
| Telematics (iCom maintenance, iTAP-push) | Driver assistance (ACC, AEBS, ASR, LEADER) | Hydraulics | Wheelend / bogie equipment | Conventional actuation | Compressed air |
| Remote & on-demand maintenance and diagnostics | Motion control | Electronics | Disc brake | Combustion engine components | Compressed air generation |
| Training drivers/ work shops (Safety direct, dimulator) | Brake control | HMI & driver information (iTAP, etc.) | Brake actuator | Electronic actuation (Kiepe) | Air treatment |
| Spare parts | ABS / wheel slide protection | Level control | Wear-resistant brakes | E-motor | |
| Remanufacturing | Emergency brake | Electronic board net / Charge regulation (Kiepe) | Electrodynamic brakes / recuperation | Converter / traction control | |
| Energy measurement | V2X communication | Pantograph (Kiepe) | Tread brake | Automated manual transmission | |
| Ticketing | Vehicle control (TCMS / UCS) | Windscreen wiper and wash systems | Electromagnetic brake system | | |
| Transport and logistics optimisation | Brake distance management / sanding | Entrance systems / doors | Eddy current brake | | |
| | Dynamic driving control (ESP) | Air conditioning | Drum brake & adjuster | | |
| | Vehicle dynamics | Conventional steering | Exhaust brake | | |
| | Torque overlay steering system | | | | |

In >50% of Knorr-Bremse's portfolio the underlying technology can be applied to both divisions

...resulting in synergies and cross-proliferation

Cross-divisional R&D examples

Leveraging Knorr-Bremse's synergies & partnerships: centres of excellence as basis for sustained technology leadership

Globally Σ ~3.600 FTE¹⁾

Knorr-Bremse's innovations are supported by a network of specialized development centres with joint production and R&D

Notes: 1) FTE refers to number of employees in R&D function (includes engineers, technicians, merchants) EOP 2019, TCI allocated to Asia

Knorr-Bremse deploys structured and effective processes to drive innovation results

Knorr-Bremse R&D process

Knorr-Bremse's innovations are designed for clear customer impact...

- Optimisation of TCO¹⁾
- Reduction of energy consumption, noise, weight
- Safety & reliability
- Connectivity, wireless solutions, ethernet
- Adaption to regulation

...and maximum economic benefit for Knorr-Bremse

- All projects assessed based on NPV²⁾
- Prioritisation of projects according to IRR³⁾
- Optimise time-to-market
- Short payback time of investment
- Ability to leverage innovation across customer portfolio

Notes: 1) TCO refers to total cost of ownership; 2) NPV refers to net present value; 3) IRR refers to internal rate of return

Close co-operation with customers & strategic partners

Government partnerships

- Shift2Rail: EU supported initiative amongst suppliers and OEMs to jointly develop an efficient transportation system
- VDA¹⁾ participation in ~20 committees
- ✓ Design of norms/standards
- ✓ Early anticipation of industry trends
- ✓ Grants/subsidies

VC partnerships with Start-ups

- Partnerships with accelerators
- Investment in start-ups
- ✓ Technology access
- ✓ R&D acceleration

Partnerships with Universities

- Research cooperations
- ✓ Access to future talent
- ✓ Scouting of new technologies at minimal cost

Acceleration of
PRODUCT INNOVATION
in digital age requires
DIVERSE PARTNERSHIPS
to outperform competitors

JVS with OEMs / technology partners

- 18 joint ventures globally
- Joining complementary competences to extend product and service lines, and capacities
- ✓ IP protection
- ✓ Local presence
- ✓ Flexible solutions for customers

Review of Knorr-Bremse financial profile

Strong financials prove KB's remarkable business model

Track record of organic growth market outperformance

~5% sales CAGR (2010–2020)¹⁾ plus selective, value-added M&A

Strong profitability & cash flow vs. peers

Sustainable EBITDA margin range of ~18–20% (2014–2020)²⁾

Sustainable cash conversion range of ~80–90% (2014–2019)²⁾, ~ 129% in 2020³⁾

Consistent high return on capital

ROCE range of ~26–53 % (2014–2020)²⁾

Proven resilience through the cycle

Aftermarket exposure of ~30–37% of sales (2014–2020)

Well-balanced regional and divisional sales mix

Notes: 1) Based on financial statements prepared in accordance with German GAAP (HGB); Group net sales including BilRUG without acquisitions for RVS and CVS; 2) Based on financial statements prepared in accordance with IFRS; 3) Significant cash preservation measures during COVID-19 crisis lead to strong CCR, which is not sustainable

Track record of strong and sustainable top-line growth ...

The basis of our responsibility

Our values

Growing with Values.

- Entrepreneurship
- Technological Excellence
- Reliability
- Passion
- Responsibility

UN Global Compact

Commitment to ten basic principles:

- Human rights
- Labor standards
- Environmental protection
- Anti-corruption

CR Policy

- Comprises our understanding of Corporate Responsibility
- Sets down guidelines for our CR focus areas
- Points out the main focus of our efforts to realize social and environmental responsibility

Our CR policy and focus areas

Strategy and management

We aim for **sustainable value creation**. By this we understand achieving long-term economic success while at the same time acting responsibly towards our employees and business partners as well as the environment and society.

We are committed to **sustainable corporate governance** that includes environmental and social aspects in strategic planning, management and corporate processes.

We act and work according to **legal and ethical principles** laid down in our Group-wide Code of Conduct.

Employees and governance

We create an attractive working environment in which the principles of **mutual trust, team-work, diversity and equality of opportunity** as well as fair and respectful treatment of each other are recognized and practiced.

We offer a **safe and healthy working environment** and enable our employees to develop their **own individual potential**.

We conduct an ongoing **dialogue with our managers** on the subject of value-oriented, sustainable corporate governance.

Products and partners

We consistently work on developing **innovative products** and solutions that combine a high degree of customer value with a contribution to sustainable development. Safety is always our overriding goal.

We **work closely with our customers and suppliers** to jointly ensure continuous improvement of product quality and minimal undesirable impact on the environment and society.

We take into account and support the activities of our **business partners aimed at improving their environmental and social compatibility**.

Environment and climate

We accept our **responsibility for ensuring a clean environment and protecting the climate** and operate in compliance with our **HSE Policy** (Healthy, Safety and Environment).

We have set ourselves the goal of handling **resources in a responsible manner**, consistently reducing **CO₂ emissions, minimizing** and where possible **avoiding** undesirable **impact** on nature and the environment and actively using opportunities to **protect the environment**.

We are concerned to optimize the **environmental compatibility** of our products across their **entire life-cycle**.

Commitment and society

We are involved, as a member of society, in **social issues** and are engaged world-wide as a **good corporate citizen**. We supplement the activities of the charitable organization Knorr-Bremse Global Care e.V. with social projects implemented directly at our production sites (Local Care).

We encourage and support **social involvement on the part of our employees**.

We see ourselves as **partners for the regions** in which we live and work, and we support their long-term development.

Communication and co-operation

We seek constructive **dialogue with our stakeholders** and provide them with regular and transparent updates on our sustainability activities.

We support social, educational and environmental projects and enter into **partnerships with organizations** that contribute towards sustainable development.

In 2018 Knorr-Bremse selected its Core Sustainable Development Goals (SDGs)

 **KNORR-BREMSE**

+

KNORR-BREMSE 
global care

Knorr-Bremse to become carbon neutral from 2021

Carbon neutrality from 2021

- KB renews its climate strategy with even more ambitious targets
- 50% CO₂ emission reduction by 2030
- Additionally: Increasing purchase of renewable energy and carbon offsetting
- Starting point of CO₂ emissions in 2018 at 143,000 tons

Contribution by our products

- Rail is a cornerstone of eco-friendly transport solutions
- Truck products support lower fuel consumption
- ~9% of KB's revenues are driven by remanufactured and recycled products
- Circular economy supported by remanufactured and overhauled products

Focus on 5 SDGs

- In 2018 ~150 top managers of KB committed to 5 core United Nations Sustainability Development Goals
- Sponsorship of Executive Board Members to drive initiatives around the KB world

Knorr-Bremse AG is part of the new **DAX 50 ESG index**

The KB climate strategy 2030 is currently rolled out, governance and control tools are set up

- Reduction measures for 2020
 - Energy efficiency
 - Own production
 - Green power supply
 - Compensation
- Governance for the implementation
 - House of Climate Initiative Group
- Implementation Control
 - Integration with existing financial controlling process
 - Steering of the target achievement via to be defined sub-targets

Knorr-Bremse takes active part in corporate memberships throughout the world

United Nations Global Compact (participation since 2010)

IMPORTANT NOTICE

This presentation has been prepared for information and background purposes only. It does not constitute or form part of, and should not be construed as, an offer of, a solicitation of an offer to buy, or an invitation to subscribe for, underwrite or otherwise acquire, any securities of Knorr-Bremse AG (the "Company") or any existing or future member of the Knorr-Bremse Group (the "Group"), nor should it or any part of it form the basis of, or be relied on in connection with, any contract to purchase or subscribe for any securities of the Company, any member of the Group or with any other contract or commitment whatsoever. This presentation does not constitute and shall not be construed as a prospectus in whole or in part.

Any assumptions, views or opinions (including statements, projections, forecasts or other forward-looking statements) contained in this presentation represent assumptions, views or opinions of the Company as of the date indicated and are subject to change without notice. The Company disclaims any obligation to update or revise any statements, in particular forward-looking statements, to reflect future events or developments. All information not separately sourced is derived from Company's data and estimates. Information contained in this presentation related to past performance is not an indication of future performance. The information in this presentation is not intended to predict actual results, and no assurances are given with respect thereto.

The information contained in this presentation has not been independently verified, and no representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information contained herein, and no reliance should be placed on it. Neither the Company nor its advisers and any of their respective affiliates, officers, directors, employees, representatives and advisers, connected persons or any other person accepts any liability for any loss howsoever arising (in negligence or otherwise), directly or indirectly, from this presentation or its contents or otherwise arising in connection with this presentation. This shall not, however, restrict or exclude or limit any duty or liability to a person under any applicable law or regulation of any jurisdiction which may not lawfully be disclaimed (including in relation to fraudulent misrepresentation).

Historical financial or operative information contained in this presentation, if not taken or derived from our accounting records or our management reporting or unless otherwise stated, is taken or derived from financial statements prepared in accordance with either IFRS (for the financial years 2014-2019) or German GAAP (HGB) (for the financial years 1989-2019), each as indicated in this presentation, for the respective period. The financial statements prepared in accordance with IFRS may deviate substantially from (segmental or other) information in the financial statements prepared in accordance with German GAAP (HGB) and, thus, may not be fully comparable to such financial statements. Accordingly, such information prepared in accordance with German GAAP (HGB) is not necessarily indicative for the future results of operations, financial position or cash flows for financial statements prepared in accordance with IFRS. All amounts are stated in million euros (€ million) unless otherwise indicated. Rounding differences may occur. This presentation contains certain supplemental financial or operative measures that are not calculated in accordance with IFRS or German GAAP (HGB) and are therefore considered as non-IFRS measures. The Group believes that such non-IFRS measures used, when considered in conjunction with (but not in lieu of) other measures that are computed in accordance with IFRS, enhance the understanding of our business, results of operations, financial position or cash flows. There are, however, material limitations associated with the use of non-IFRS measures including (without limitation) the limitations inherent in the determination of relevant adjustments. The non-IFRS measures used by us may differ from, and not be comparable to, similarly-titled measures used by other companies.

This presentation includes "forward-looking statements." These statements contain the words "anticipate", "believe", "intend", "estimate", "expect" and words of similar meaning. All statements other than statements of historical facts included in this presentation, including, without limitation, those regarding the Company's financial position, business strategy, plans and objectives of management for future operations (including cost savings and productivity improvement plans) are forward-looking statements. By their nature, such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements of the Company to be materially different from results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Company's present and future business strategies and the market environment in which the Company will operate in the future. These forward-looking statements speak only as of the date of this presentation. Each of the Company, the relevant Group entities and their respective agents, employees and advisers, expressly disclaims any obligation or undertaking to update any forward-looking statements contained herein. You are urged to consider these factors carefully in evaluating the forward-looking statements in this presentation and not to place undue reliance on such statements.

To the extent available, the industry and market data contained in this presentation has come from official or third party sources. Third party industry publications, studies and surveys generally state that the data contained therein have been obtained from sources believed to be reliable, but that there is no guarantee, representation or warranty (either expressly or implied) of the accuracy or completeness of such data or changes to such data following publication thereof. Third party sources explicitly disclaim any liability for any loss or damage, howsoever caused, arising from any errors, omissions or reliance on any information or views contained in their reports. Accordingly, undue reliance should not be placed on any of the industry or market data contained in this presentation
